Comments: [COPIED FROM ATTACHED DOC]

Please disregard my question. The nearest road is actually on the other side of the South Slope fence.

Ref. Site NFSR 376A. I see two possible locations for the intersection of NFSR 376 intersection with

(closed) 376A. One is nearest the entrance to the South Slope Recreation Area and the other

intersection is a couple hundred yards further south on NFSR 376. Could you be a little more

specific regarding the location of the referenced intersection?
