Comments: [TEXT COPIED FROM ATTACHED FILE]

Thank you for forwarding the interactive map. Please see attached as the interactive map does not provide a detailed view of proposed shooting areas and areas closed to shooting. Please note that the map shows:

-The current developed turkey tracks shooting area closed to shooting.

-Random areas open to shooting.

-Forest roads that don't exist or have been closed

It is very unclear if your proposal is to allow shooting in the developed shooting range currently in Douglas County or if you plan to include shooting areas along FR343 in Teller County. If you could please clarify the forest service proposal it would be greatly appreciated.

-----

I own Pikes Peak Resort which is the private land to the west closest to the proposed turkey tracks shooting range. FR 343 (turkey tracks) terminates on the west side in the west creek valley with private land. I have reviewed the INTEGRATED MANAGEMENT OF TARGET SHOOTING ON THE PIKE NATIONAL FOREST plan. Figure 4: proposed target shooting closures, is not of a high enough resolution that I can tell how much of FR 343 is proposed for shooting and how much is proposed for closure to shooting. Could you provide a detailed map of the area between Teller County Rd 78/ Douglas County rd 73 and Highway 67.

Could you also provide the attached design overlaid on a detailed forest map.
