Title:

Comments: Boggy Draw is a sacred place for me and my family. It is a place where we can unplug and re-connect as a family. We strongly oppose the proposed logging project that is set to take place. Camping in this area is second to none. The tall trees, provide a perfect getaway for our family and many families like ours. Hiking, biking, animal watching are all at danger of being lost with this proposed project. For the mental health of me, my family and anyone that uses this space to recreate in, you cannot start logging this one of a kind area.
