Comments: Dear Ranger Powell,

This is in response to your request about comments about the mountain coaster.

I have lived in Alb. 42 years and whenever there was a trip scheduled to the Sandias, it was to get away from the noise and crowds of the city. To hear silence and not to visit an amusement park. People have been visiting the cret for years. To hike, experience the beauty and perhaps be lucky enough to observe the wildlife that may still live there, not ride a "coaster."

Once you begin building, something will always need to be added. With all the trash National Parks are now having problems with, what makes anyone think visitors to the Sandias will be any different.

Thank you for allowing me to submit my opinion.
