Comments: Comments re Cordova District Ranger Guided Helicopter Skiing Project #59615

Greetings:

Thank you for forwarding this Proposal for comment. Attached is a written comment regard this Project.

As mentioned within the comment, I would really appreciate the opportunity to sit down with you to go over the map that describes the proposed expanded area. It is hard to detail each of the many areas it would impact, as well as who. Plus it would be nice to look at each area in greater detail.

It could also be that perhaps I have misunderstood exactly what activities Pts. North proposes in these areas.

It seems like such a broad expansion from their prior operations, and counter to their general philosophy of cooperating with locals.

thanks,

Dick Shellhorn

P.S. Dana and Milo will perhaps verify my "bonafides."
