Comments: Applications for Permit to Drill (APD's) in the Sespe Oil Field

Dear Mr. Schwartz:

I live in Los Angeles, and I frequently backpack in and around the area where fracking is expected to take place.

I visit these places to recreate with nature, not to invite cancer and other serious illnesses into my body when I drink the creek water and breathe the air while I hike.

WE DRINK THIS WATER, MR. SCHWARTZ!

Would YOU drink from a source you know is contaminated by fracking chemicals?

Would you?

Duane Waite
