Comments: Applications for Permit to Drill (APD's) in the Sespe Oil Field

Dear Mr. Schwartz:

I'm writing to urge you to protect the Los Padres National Forest from the impacts of fracking and oil drilling. The Forest Service should prepare a full Environmental Impact Statement, and no fracking should be approved until we know more about the potential environmental and public health impacts of this controversial practice.

These public lands are home to our endangered condors and a refuge for wildlife. Potential spills, groundwater contamination and seismic disturbance are not risks worth taking for private profit on public land.

At the very least a full Environmental Impact Statement is needed before approving any fracking operations in Los Padres National Forest. Thank you for your efforts to protect our forest and surrounding communities.

Rebecca Mordini
