First name: Emilio

Last name: Trampuz

Organization: Mountain High Snowsport Club

Title:

Comments: The majority of our Mountain High Snowsport Club members ski at Mt. Hood Meadows regularly. We support the effort to upgrade the main Mt. Hood Express quad chairlift with a 6-passenger lift.

The new lift will alleviate congestion and long lift lines at the base area. This is a badly needed upgrade.

See an average lift line in the attached picture. The line often gets much worse than this. Note that there are actually two lines converging here. Most of what you see is only one of the lift lines on one side of the lift. There is also a second line of people approaching the same lift from the other side.

Please approve this project.
