1755 Cleveland Hwy

Gainesville, GA 30501

I was in shock when I read that people were camping in our National Parks, Chattahoochee and Oconee, illegally with no facilities for water and nowhere to dispose human waste. This will impact the land through erosion, impact wildlife (which is one reason these lands were set aside to be saved), and ruin the peaceful settings for Americans to see and hike for future generations.

As homeowner in Young Harris since 2005 I have hiked these areas with no fear. If this bill is allowed to change, hiking will be more dangerous not to mention more dirty. I personally feel people shouldn't be allowed to camp for even 2 weeks in these areas and these areas should be restricted.

Thank you

Helen Kobliha
