Title:

Comments: I have been fighting for the MUSTANGS and BURROS since 1974, I was 14. My first letter was to then my Gov. Ronald Reagan. I posted flyers all over my hometown of Bishop California.

The BLM has not been doing their job all these years. They have big cattle money in line and not the wild bands. These lands were allocated for our wild bands.

PZP is the most humane form of fertility control not surgical mutilation.

BLM has so many holding facilities with OVER 60k mustangs/burros in them. Maybe the cattle barons should pay for their upkeep plus updating facilities as in shelters, better and bigger corals, pay for feed, vet Bill's keys not forget ferriers!

These horses are adaptable. They have been here for over 50k years. LaBrea tar Pit in so cal has the proof!

Since the BLM is funded by the federal government and our taxes fund the federal government WE THE PEOPLE DO NOT WANT THE ERADICATION OF OUR AMERICAN MUSTANGS.

My curlie came from the black rock range in NV.
