First name: Linda

Last name: Goller

Organization:

Title:

Comments: For many years, my husband and family have enjoyed the forests surrounding the boise area and all of southwest idaho. Boise National and Payette with its many rivers, are key to our recreational enjoyment and even more so since we retired. We camp, hunt, fish, bird watch, boat, ride our polaris razor trail 900 in most of the dirt trails from the owyhees to the mountains at loman, cascade, idaho city, garden valley, payette, horseshoe bend.

Restricting our access makes us very sad as we love the outdoors and wildlife. Its what attracts people to our beautiful state. Please reconsider alternatives.

Sincerely,

John and Linda Goller
