Chad,

I am writing to urge you to protect the timber industry, outdoor management, and hunting by choosing alternative description C forest plan (B would also be a good backup option).

I grew up in Montrose, CO and my husband is now a local business owner in Montrose and Grand Junction. We enjoy recreational activities in GMUG National Forest year round. We are also passionate about maintaining our local industries and the surrounding areas.

Alternative D would create the most destruction to our way of life and future by not properly managing our greatest resource. Please do not choose option D, instead choose option C which would help to best maintain and care for our forests.

Sincerely,

Emily Padley
