Attached are comments from Kentucky Heartwood and the Kentucky Resources Council in response to the Hector Mountain Salvage proposal. We will be sending attachments in separate emails.

We initially sent comments to the address provided in the scoping document (comments-danielboone-redbird@fs.fed.us) but received an automated response that the message was blocked (see screenshot below). The submission link provided in the scoping letter for submitting comments offers only the individual email address of an individual (Rick Laakman) for submitting comments. We are therefore sending these comments to Ranger Claybrook, Mr. Laakman, and the previously used email address for submitting comments to the Redbird District. It is particularly frustrating that the Forest Service has failed to provide correct submission information given the fact that this is the only planned comment period on this project,
