Title:

Comments: Hannah, Bill and Katie,

Sorry for the last minute submission of my comments, this last month has gotten away from me. Also, the link for electronic submittal in your original email below takes me to a strange website. I don't know if the link is wrong or if the site has been hacked, but it certainly seems to have nothing to do with an electronic portal for comments.

As that portal is not functional, I was hoping an email would be sufficient so I've attached my comments in word form. I don't know if it's appropriate to call my concerns/comments an objection, but I've done so in the attached. As we discussed in April, my primary concern (as I believe yours is) is that the burden of addressing impacts related to the increase in recreation use in the area not fall on the surrounding community. I know you continue to work with TORTA on defining maintenance and operations responsibilities, so my hope with this objection is to raise my hand as an individual in the community and ask that we continue to have some involvement in the shape those agreements take.

Please let me know if I need to submit this in some other fashion.

Thanks

Adam Rasmussen
