Comments: The USFS has done a HORRIBLE job to date managing our forests.
I want to see AGGRESSIVE management, beginning with beetle kill affected areas.
I want NO CONTROLLED BURNING!! in Boulder County. Slash can be mulched and hauled off. We have lost the safety window for controlled burns in the west. You will stop this policy if indeed the USFS can be sued.
I want a year round stage one fire ban in ALL of Colorado.
I want the USFS to commit to a SWEEPING public education policy with regards to Wildfire. Bring back Smokey. The lack of education for the last 50 years plays a key role in the undeducated, camping public.
