Title:

Comments: I have worked for Sibanye Stillwater since 2006 - I have never seen a more thorough environmental department. Under no circumstances would they go into this without all of the t's crossed and i's dotted. They would not jeopardize any one in the Boulder valley with this project or any other. The people complaining about this bought their properties after the mine was there and knew about it then. So if they didn't have to buy there, that was there choice and now they are about throwing there money around. We depend on the mine, we work there and are proud of it!
