First name: Jeremy

Last name: Sherman

Organization: Keep the Backcountry Backcountry

Title: Glade Chief

Comments: Is the area to be gladed already a natural backcountry (bc) zone? Do folks already ski/ ride it? If so, can the area be kept natural for folks to continue using and have the new glades be relocated?

USFS - consider protecting natural bc areas while encouraging modified bc in new zones. Protect terrain diversity and the natural bc experience, and avoid conflict and over-tourism. Both natural and modified bc are a good way to get outside and can help the economy (but very different experiences for the user). Please see attached pdf for info on Keep the Backcountry Backcountry, a voice for those who want to protect and enjoy the natural bc experience.
