Comments: I have had my place at Holland Lake for 20+ years and am a 4th generation Montanan. I do not approve of this development. I go to my place to unwind from the city and you want to bring that here? This will destroy everything that makes this place special to so many Montanans.

What happens when the septic system from all those buildings leaks into the lake causing algae blooms like it has done to Seeley Lake?

I am a biologist and I know this will be horrible for this pristine location. Add to Big Sky instead and stay away from our wilderness! Just because you can does not mean you should!
