Comments: Please do not let this beautifully natural Montana keepsake turn into a resort. This area holds a very special spot to my family and I. Seeing it turn into a public resort will only cause people to ruin its beauty. Places like these needs to be left alone! If we allow this how many more big corporations will come in thinking they can turn Montana into a city ran state? That is not Montana. It is a state where you go to escape from the big city mentality, a state where you find quiet when driving for less than 10 minutes. I urge this corporation to stop its planning to turn this magically peaceful place into something it was NEVER meant to be. Leave Montana alone.
