Comments: Please do not develop Holland lake. This is a true Montana treasure that needs to be preserved as is. I am born and raised in Montana and have visited Holland lake as long as I can remember. This is a staple in not only mine but my entire families childhood. The waterfall is where I got engaged to my husband 3 years ago. This year we had the pleasure of hiking with our 7 month old son to the exact same spot to start our family memories and traditions. I want my children to have the same beautiful place to visit as they grow up. Holland lake is a precious part of Montana and needs to stay exactly how it is. Please don't strip the simplicity and pure joy of Holland lake from the many Montanas who adore it for exactly how it is and have for many years.
