Comments: Dear forest service,

As someone who just recently had the pleasure of gazing out over the magical Holland Lake for the first time, I can assure you that allowing selling off the land surrounding the lake would truly be selling off one of Montana's last best places. I have been to some beautiful spots in my life and this hidden gem easily ranks at the top. There aren't enough places like Holland Lake left in the US and you have the power to keep gifting generations with this sanctuary of peace and pristine beauty. This area was meant to be enjoyed, treasured and protected. I'm pleading that you will make the right choice so we can continue to preserve one of Montana's most glorious lakes.
