Title:

Comments: Keep our forests, lakes and wilderness wild. By allowing the destruction of historic buildings, and development of pristine wilderness into a "high class" resort only meant for non-residents of Montana would be a detriment to the state, the people of Montana and the country we live in. Please keep Holland Lake, holland lake campground and access to the falls available to those who live here and want to enjoy the state we live in. By allowing this development to occur, it will be doing a dis-service to everyone who recreates or lives in the area.
