Comments: Holland Lake has been a go-to place for me, my family, and friends, for camping, hiking, kayaking. We love the Isolation and tranquility of the area. The historic cabin adds a uniqueness to the lake that makes it "Montana" and needs to stay.

I, personally, have special memories there and want to create the same with the next generation. The hike to the falls was the last hike I had with my father. The photo (attached)overlooking the lake and trees is an image that must not be disturbed!

This will be COMPLETELY DASHED TO PIECES with addition of condos. No one person should "own" the pristine woodland, which is also home to several species of wildlife unique to the ecosystem.

We SHOULD NOT be battling to keep our beloved Holland Lake the way it is. Just the thought that someone wants to destroy the Holland Lake area turns my stomach.
