Comments: Holland lake is a beautiful MT gem that is already inundated with tourists. Leasing forest service land to wealthy out of staters is not fair to Montana natives who love and respect this land. These people do not care about the land. They only seek to profit off it and will toss it aside like a piece of trash once they have destroyed it and move on to the next thing. Please keep this lake open to the public (of all incomes) so that we can continue to enjoy this beautiful place. Please do not mar Holland lake's shores with another rich fools eyesore. We deserve better. Looking out across the lake from Holland falls, the last thing I (or any Montanan) want to see is a shore full of buildings and cars scarring this once majestic landscape.
