First name: Carolanne

Last name: Sacry

Organization:

Title:

Comments: My family is mostly in Montana. We have and do love camping visits, picnics, hikes, paddle boarding, swimming, at Holland Lake. The majestic natural beauty there supports a massive amount of wildlife. Building a resort there would disrupt the ecosystem for animals and all of nature, as well as the refuge for humans to visit. Please do NOT allow more of this high-price exclusive resort building to take place and ruin our earth. This place must be preserved as naturally as possible. Please do not allow a resort or any new buildings to ruin Holland Lake! Thank you for your deep thoughts and consideration of how the Forest Service may best serve Nature and the people living on Earth. I'm attaching a photo of a family picnic at Holland Lake.
