Comments: 1. You cannot sell this public land to a private party. The taxpayers of Montana DO NOT WANT this sold OR developed.

2. I AM a Montana taxpayer and I can now visit this Pristine Last Best Place for a minimal fee. If it is sold and developed, the property that I previously owned is now off limits to me because I can't afford it!

3. Doesn't sound like a win-win for Montanans.

4. Scrap this idea and send the California deal back to California. Look how well the sunshine state turned out after development.
