Comments: I am completely against any development including a lodge, cabin, or restaurant near Holland Lake. This would drastically affect the ecosystem of the area and not only affect holland lake but the swan valley in general. Many families and animals have grown up and called the swan valley home, to see all of this jeopardized for a hotel 'glamping' experience is completely ridiculous. Holland lake will be ruined for what is cherished and loved for, everyone needs to experience this lake but not in this way. Let's keep it how it is;)
