Comments: The last thing Holland Lake and the people of surrounding communities need is another sprawling, exclusive, high-end resort that brings in nothing but wealthy, out-of-touch, elitist out-of-staters to "discover" Montana and ultimately buy up land, build 2nd and 3rd trophy homes, and drive locals out of the housing market while we're left to deal with their garbage and sewage and lose what little peace and serenity remains in our local forests. Ask yourself, do we really need another PawsUp? Do we need to do this to our cherished local lake? Do we want to triple the boat traffic? Quadruple the road traffic? Why? The Last Best Place is being destroyed because of projects like this. Please do not hasten Montana's demise.
