Title:

Comments: I oppose the land swap.

More details and environmental impact studies need to be conducted and considered before this moves forward, and the true impact on Montanans must be discussed with the affected communities.

This proposal makes it clear that Montanans are losing in this deal. We're losing:

Water rights

Mineral rights

Public land access

As a lower income Montanan, land access is essential to my wellbeing, especially when the cost of living has been driven up so high. Please reject the land swap so that my children can enjoy a Montana made for Montanans, not made to accommodate the men with the most money and highest power.

I've attached photos for reference of my family enjoying Montana's public land
