First name: Ian

Last name: von Lindern

Organization: TerraGraphics International Foundation (TIFO)

Title: Founder && Senior Scientist

Comments: These comments are submitted by TIFO regarding the SGP Supplemental Draft Environmental Impact Statement (SDEIS). The following attachments are included: TIFO SEIS 2022 Comments, TIFO DEIS 2020 Comments, TIFO DEIS 2020 Support Tables, TIFO Extension Request, Nazari et al. 2017, fseprd547191.pdf (usda.gov). The Forest Service has substituted a new Alternative differing substantially from the 2020 DEIS and Alternatives identified in the scoping of the SGP. The Forest Service did not respond to 2020 DEIS comments before allowing the SGP to submit the new Alternative. As a result, it is necessary to re-submit the 2020 DEIS Comments and Support Tables as part of the SDEIS comments. The Nazari et al. 2017 reference is review material cited that was not included in the 2020 DEIS or 2022 SDEIS Forest Service reference materials. The TIFO Extension Request was sent to Lisa Jackson on December 15, 2022 and received no reply. Fseprd547191.pdf is from the USDA FS website. The Forest Service decision to substitute new alternatives, not respond to public comments, and unreasonably restrict the public review period should be reconsidered in the light of Gifford Pinchot's original admonitions regarding public service.
