Title:

Comments: I am currently a private landowner in Wallowa County located on the National Forest bounty where the planned scope of forest maintenance is planned to improve forest health, provide improved wildlife habitat and increase wildfire resistance.

I would like to say how great it would be to work with forest service to provide cross boundary care for the private landowners.

My current address is in Washington however, I plan on spending many months on the property in Oregon located on the Imnaha river road, with about one eight mile of river front property on Imnaha river and 20 acres of land.

I am hoping that Forest Service will consider supporting the private landowners.
