Comments: Dear CNF,

Please see attached photos.

In my primary document, I discuss Noise pollution. This can come from increased vehicle traffic or even from helicopters and fixed wings.

The Taos Airport expansion was done in part to accommodate Taos Air and flight service for TSV resort guests. As mentioned, TSV stands to benefit from increased traffic, however the public at large is generally left to bear the costs, while gathering none of the rewards.

TSV Inc. effects our communities water quality, while at the same time adding noise pollution and privacy issues with Jet's increasingly often low approaches over Arroyo Hondo. I've always felt sorry for people living in the flight path of any airport. Now we find that we are those folk. We bear the costs for the Ski Valley's profits.

Thank you.
