Title:

Comments: Sacrificing some of the best recreational area in the state just to allow some private company make money is not what I count on the Forest Service to allow. I often tell friends outside the Black Hills how special a place this is. Giving up the trail system in this area lowers to value of the hills for what I enjoy. This will impact the number of tourists from out of the area that come to ride, run, hike and race in this area. Please do not approve.
