First name: renee

Last name: Margaux

Organization:

Title:

Comments: I meet with Chief Burt Stalter in late October, early November 2022. We walk my property boundaries as it abuts the SNF. He concurred that there was tremendous overgrowth on the USFS side, likely overgrown for 15 years or more. See pictures, there are 20. This is just a sample of one of two sides. I have offered access from my property to this area. Please speak with Chief Stalter for his input from his visit.
