Title:

Comments: County Road 255 is a camping and very populated area. It is already overrun and abused.

I vote overwhelming no on this site. To any of these sites there needs to be a curfew in place.

It has already been said that you do not have the man power to oversee any of these sites. Will these sites be fenced? 255 is an active cattle range.

Wilkerson Pass is a migration area to bring the wildlife in. That will need to be a consideration factored in.

County Road 90 has no lease, no cattle that would be in jeopardy. It would take some of the traffic off of 31. It seems all of you overwhelm one area with no afterthought.

Why was Weber Park pasture area not looked at for this project?

I vote for County Road 90.

Jill Smith
