Last name: Brown

Organization: GrowgRoots

Title: Administration

Comments: I am trying to implement the passage of Celebrate Earth Day 2.0 and National Arbor Day 2.0 twice a year ??

Problem is, I don't have the means nessasary to get it done, asap.

Your team is best prepared to implement this project ??

Traditional date: April 22nd ?? and the last 3rd. Friday of April ??

2.0 dates: Oct 22nd ?? and the following Friday of Oct ??

Arbor Day was originally established in 1872 as a way to promote sustainable living in an accessible and communal way. Over the past 150 years, emissions have skyrocketed to uncountable numbers while we as a people try our best to look the other way and continue living our comfortable lives.

Responsibility for the planet is no one man's job, but is a task put on each one of us. By extending Arbor Day to a second season this would double community efforts to play our part.

Who?

Everybody! In the same way that Arbor Day brings us all together in the spirit of taking care of the planet, Earth Day & Arbor Day 2.0 will extend that community.

Sincerely,

Jeff
