Last name: Leivestad

Organization: City of Thompson Falls

Title: Mayor

Comments: This is to update the Thompson Falls Public Water Supply Source paragraph information on page A4-16 under Table A4-8. The suggested correction we are submitting :

Currently, the City of Thompson Falls public water supply sources are the Ashley Creek Springs source and two groundwater production wells located northeast of the high school. Two shallow production wells noted in this paragraph are no longer in use and were taken offline in 2002.
