First name: Roger

Last name: Featherstone

Organization: Arizona Mining Reform Coalition

Title: Director

Comments: Dear Forest Service official,

Please accept these scoping comments from 250 individuals from across the United States. Please note that the Arizona Mining Reform Coalition has filed scoping comments on this proposal in several different ways and that this set of comments were compiled by the Coalition, but the comments are from the individuals that have signed the comments. Please add all signers individually as if they had sent these comments separately and not bundled.

I have attached a copy of the comments signed by each individual that can be added to the public comment record. I have attached a second file containing a spreadsheet with the names and addresses of each signer for you add to the comment contact list. This second file should not be added to the public comment file as it contains sensitive address information for the signers.

Please contact me if you have questions.

Thanks,

Roger Featherstone

Director, Arizona Mining Reform Coalition
