Comments: I am writing in support of this project and the potential economic impact it would bring to the mena area. I have been an avid mountain bike rider for over 40 years and I would love to see this trails system in our region. The trail system would draw in riders for several states away from mena and in turn bring a huge boost to the service/rental industry of the greater Mena community. Please consider the community benefit of this proposed stellar trail would bring to the greater Mena area.

The photo was taken today on the Rich Mountain Trail running the length of this proposed area
