judith.perez@usda.govRe: Rio Grande National Forest scoping for the Over Snow Travel Management Planning Project Dear Ms. Perez:The Saguache County Board of Commissioners are writing this letter to provide comments on the Over Snow Travel Management Planning Project.The Board would like to request that the Motorized Trails be separate from the Non-Motorized Trails due to safety of all the people that would like to use either trail.The Commissioners would also like to request that the designed Nordic Trails begin at designed Trail Heads.The Saguache County Commissioners greatly appreciate the ability to provide our comments in this manner. We did try to submit them through the portal, but we could not get it to work.If you have any questions me at 179-655-2231 or at wmaez@saguachecounty-co.gov with any questions, or to request additional information.Wendi MaezSaguache County Administrator
