First name: Jesse

Last name: Filippelli

Organization:

Title:

Comments: As a member of the backcountry ski and Ski Patrol community, I am very against this measure.

After reading through the information I fail to see a well collected scientific based reasoning for this to move forward. Frankly I do not believe that the job of the national forest service is to take my tax dollars that pays their salary and then have that work towards removing my rights to public lands.

This idea is on par with the wolf reintroduction and Prop 127.
