First name: Albert

Last name: Kaufman

Organization: We Keep Trees Standing

Title: Founder

Comments: Hello, Please leave trees standing as much as possible. Our forests do more to sequester carbon than any other in the world. We need the trees standing to push back against climate change.

This is not a good reason to cut down trees: "to provide jobs for mills and timber workers". No, no, no. There are no jobs on a dead planet. Stop cutting trees for this reason.
