Comments: I support any an all trail opening to the use of e-bikes. As a mother, and a daughter the use of an assisted bike could be vital to our ability to get to enjoy the trails. Personally pedaling around a 30+ lb toddler I have dreamed of being able to use an e-bike. Second having my 80 year old dad visit, he was able to get out with me and my toddler because of the use of an ebike. They are a valuable tool in our ability to recreate in this modern day.
