First name: Chris

Last name: Brule

Organization: Mountain Bike the Tetons

Title: Executive Director

Comments: Thank you for your time and dedication to advancing recreational access in the Tetons. As an organization, Mountain Bike the Tetons is committed to promoting responsible, sustainable recreation and fostering community input and engagement throughout the decision-making process.

As the popularity of e-bikes continues to rise, it's becoming increasingly important to establish clear standards and boundaries that address the evolving needs of the Jackson area while also respecting the original intent and purpose of the trails in question. We believe that thoughtful, balanced regulation and education can help preserve the integrity of the trails, ensure safety, and maintain an inclusive environment for all users.

Please refer to the attached document for Mountain Bike the Tetons' public comment.

Thank you for considering our input as you work toward creating a balanced and enjoyable experience for everyone in our community.

Ride on!
