Comments: To NWFP Amendment comment reviewers,

I sent in my letter three times because, for some reason, it never was shown in the public reading room? I attached a PDF of the letter to the third attempt submission.

This is my fourth submission attempt to have my files of the previous 5 months worth of trips we took as Ground Truthers for Coast Range Association officially reported as part of the comment to the DEIS of the NWFP Amendment.

I now submit, again, the files I created to show where we visited the Siuslaw National Forest ,and what we saw on the ground, as to the biggest trees and the location of mature stands that we found in the southern portion of the Hebo Ranger District/ East of the Cascade Head Experimental Forest. We were told some other volunteers had surveyed the other portions of the Hebo Ranger District.

I sincerely hope our forms get accepted as part of the comment portal, because it was a lot of time we spent with the intention to use these reports as part of this comment process addressing the planned amendments to the NWFP.

Sincerely,

Madeline Vance
