First name: Alondra

Last name: Ramirez Martinez

Organization:

Title:

Comments: I don't know why even after hundreds of years, there is still no respect towards the natives of this land. Beyond that, why is it that the excuse for growth and development, is drilling and going through people's sacred lands, people's public spaces, peoples connection with nature and the earth. Please don't do this... Let them have what belongs to them...
