Title:

Comments: I have been coming up here for over 40 yrs and my Children and my grandchildren.

We believe that these beautiful creatures belong here always it's part of what makes this a beautiful place to live and belong too.

Our drives in the woods are beautiful and a welcome experience for all . It's not just a place to bring your ATVs and go crazy we need to respect and appreciate all the animals that live here . Please let this stay as a beautiful reminder of why we live here. When I was a child I told my mom and dad that I would live up here forever and now here we are !

If it's more help that we need for these horses to stay let's all come together again and again to make it happen
Please Please
