Please accept the following public comments on behalf of the Council on Wildlife and Fish, Alliance for the Wild Rockies, Native Ecosystems Council, and Gallatin Wildlife Association.

The only way I was able to access this portal to comment was through another commenter that had saved this link. This public comment portal does not exist today (Dec. 7) on the 1) the Beaverhead-Deerlodge N.F. website, 2) through the SOPA listing, 3) the forest-wide archives, or through the listing of current projects on the website. You have inadvertently (or deliberately) blocked any and all possibility of the public's ability to submit comments on this (Greenhorn SEA) Project.

I suggest you extend this (already ridiculously short) 5-day comment period to compensate the public for shortchanging their already extremely limited time to comment.

You make a mockery of the entire purpose and meaning of the public participation process by resorting to these kind of sophomoric stunts.
