After studying the maps and proposed actions to be taken by this proposal I would like to make the following comments:

To preserve the Natural Character of the Hardwood/Pine Islands in the Morrison Hammock Swamp, I do not feel that any management activity should be conducted in the area Specified on Page 11, Figure 4 (Map) as 353, stands 34, 29, 28 and 9.

Which the proposed action is; Timber Stand Improvement.
