Comments: The Home Stake Mill site has done tribble damage to our community and even today is still causing issues with ground water.

I am all for new jobs and getting minerals out of the ground to support our county's needs.

I like the idea of reclaiming an already existing mines instead of starting new ones.

We do not need HOMESTAKE underground water issue every again over 500 properties some with underground wells were purchased by Home Stake and are now unusable around the mill site!
